

teknion projek

teknion

Projek™ is smart, simple seating designed to express the values of appropriate function and user interface. The chair's ease and range of adjustment provide dimensional fit with a minimum of fuss, addressing a real need for a purposeful chair that affords the utmost in quality and performance.

The Projek collection comprises Task, Stacking Guest and Conference chairs, as well as a Swivel Stool, each with a clean and unassuming look that fits any office interior. Projek's ability to visually fit with any setting is enabled by inventive use of materials and choice of different component finishes that allow for a creative use of color.

Projek marries design and engineering finesse to deliver aesthetic variety, ease of use, dimensional fit and dynamic function.

05

task chair
Upholstery: *Pela, White Clay*
Mesh: *Sbrinx Veil, Blanc*
Frame: *Very White*
Lumbar: *Ebony*
Base: *Polished Aluminum*
Arms: *4D*

task chair
Upholstery: *Pela, Carbon*
Mesh: *Sbrinx Original, Ebony*
Frame: *Ebony*
Lumbar: *Ebony*
Base: *Polished Aluminum*
Arms: *2D*

08

conference chair
Upholstery: *Cross Dye, Watercolor*
Mesh: *Sbrinx Veil, Blanc*
Frame: *Very White*
Base: *Polished Aluminum*

The Projek Conference Chair with fixed arms provides aesthetically clean and casual seating for meeting and touchdown applications.

aesthetic variation

Projek allows you to mix or match finishes to create a unique aesthetic. For a classic, neutral look, the mesh and frame are available in complementary Ebony and Very White colors. For a fresh, forward look, select the desired finish for each component – mesh, seat upholstery, outer back frame, inner back frame, lumbar support and five-star base.

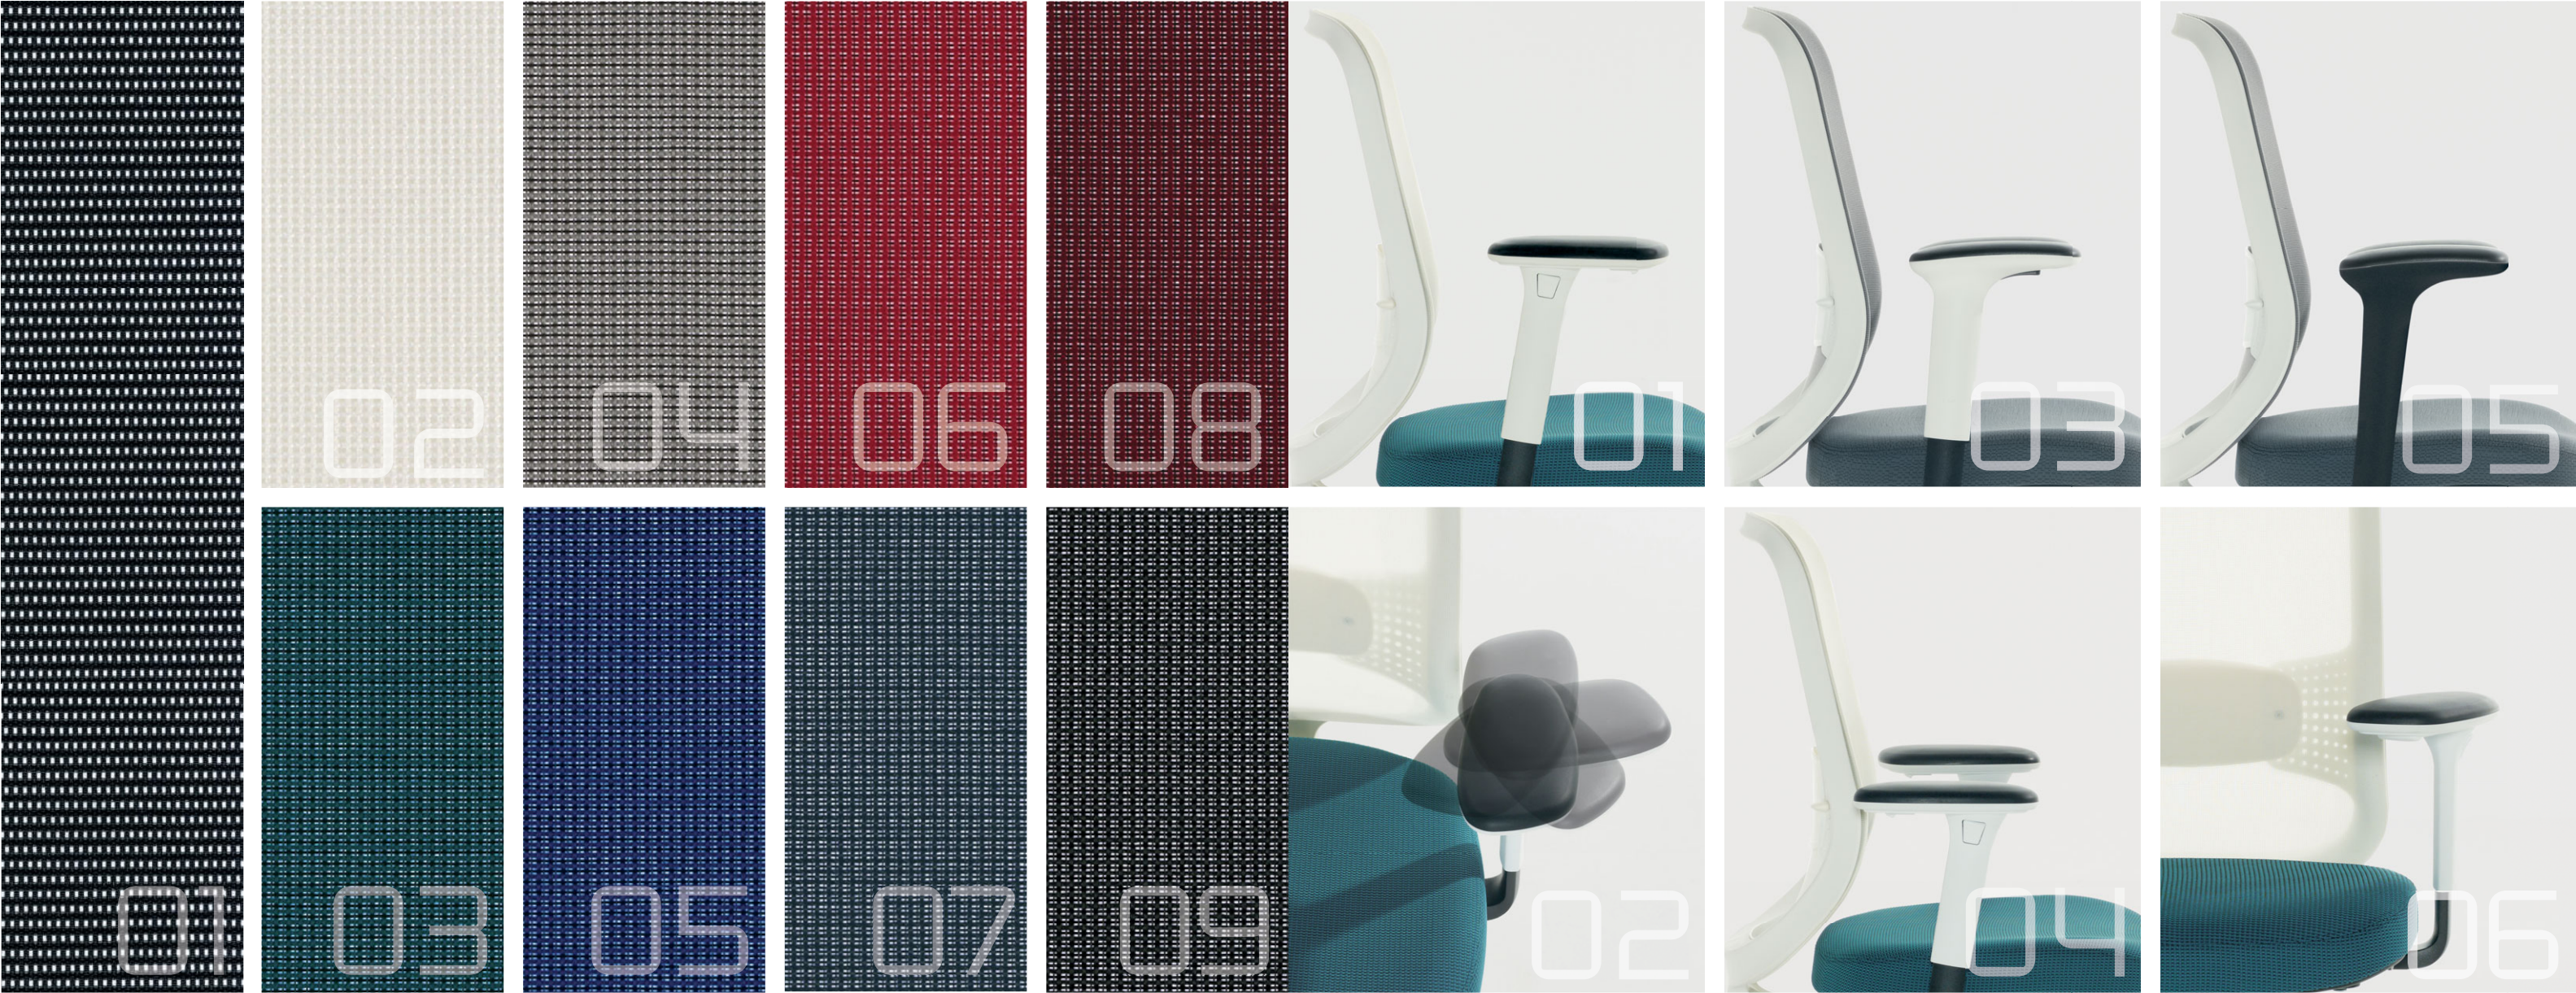

mesh options/
colors

Projek features an innovative Shrinx mesh textile that forms the back of the chair and adapts to the individual body shape. The mesh undergoes a heat-shrink process that molds it to the precise tension required for ideal back support. In addition, the mesh textile allows air to pass through the material enabling thermal comfort.

Projek offers two mesh styles that expand aesthetic choice – Shrinx Original Mesh features an open, translucent weave, while Shrinx Veil Mesh has a finer tailored weave.

features

Projek offers 4D, 2D and fixed arm styles in order to assure proper fit and support for the person, preference and task—and to suit varied price points. Models without arms are also available.

09 Noir

01 4d arm

The 4D arm greatly expands the parameters of user comfort and support, featuring height, width and depth adjustment, as well as multiple arm cap pivot positions.

02 210-degree pivot

4D armrests feature an auto safety lock and pivot 210 degrees to provide multiple pivot positions for users of varying size and tasks of a different nature.

03 2d arm

The 2D arm offers a moderate level of adjustability with height and width variances.

04 swivel pivot expands armpad depth

4D armrests adjust 180 degrees inward, allowing a broader user range to naturally position elbows down the body midline, minimizing discomfort in the arms, shoulders and neck.

05 fixed arm

Fixed arms are ideal for short-term applications where less adjustability is required.

06 swivel pivot expands activities

4D armrests adjust 20 degrees inward, positioning users' arms close to the body and limiting stress on the arms and shoulders, ideal for tablet use and reading.

adjustment features

Projek is user-centered seating. Designed with simple, intuitive adjustments as standard features, Projek makes it easy for users to achieve the desired position and functionality.

task chair and swivel stool

- Automatic weight-balancing synchro-tilt mechanism adapts to users of various sizes, and has a tension override adjustment for additional fine-tuning
- A travel limiter allows users to recline at three different angles, encouraging movement while ensuring continuous

- support. The back locks in the upright position, promoting proper posture
- Standard lumbar element is easily reached from the seated position, adjusting 4 inches in height to provide lower back support and comfort
- Height adjustment range of 5 inches

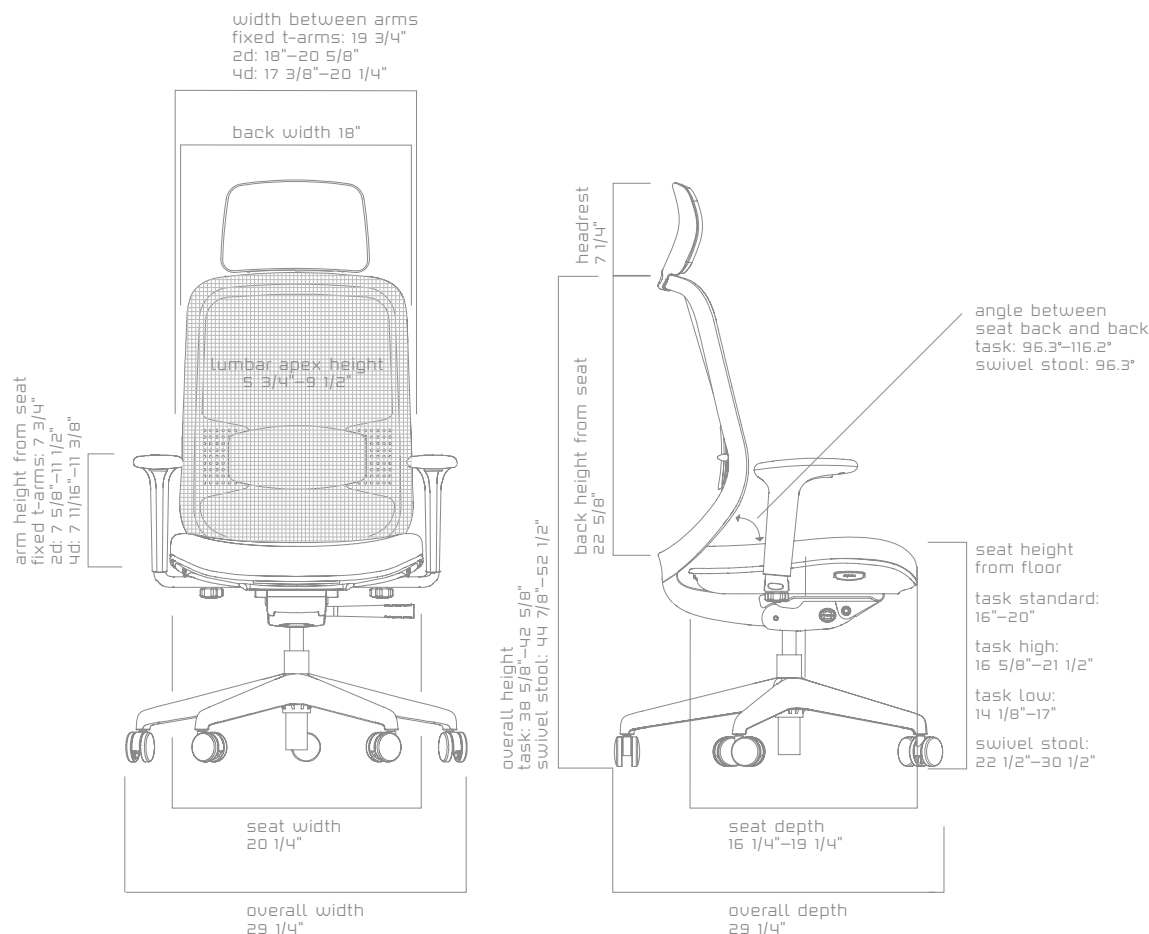

conference chair

- Fixed arm design provides a refined aesthetic while minimal adjustments offer easy-to-operate seating
- Swivel-tilt mechanism promotes user movement with continuous support
- Height adjustment range of 4 inches provides users with preferred seat positioning

guest chair

- Cantilever frame allows stacking to four-high
